Coffee table Bijou

249 usd

- Designed in collaboration with illustrator Olya Lisovskaya.
- Designed and manufactured in Ukraine, with love!

The original Bijou coffee table is a symbol of femininity and tenderness. It takes its name from the French word Bijou (bijou) "jewel, decoration." The new design explores the importance of decoration and stylization to create a cohesive piece of art.

The table image is inspired by watercolor illustrations by artist Olya Lisovskaya. Her constant search for a personal prism that most accurately reflects her own vision of reality. All glass surfaces in the collection are decorated with works by the artist. They give the tables, at first glance, a sense of naivety. On one of the tables there is an eye-catching polished brass handle. It forms an intriguing pinnacle of noble material. Performing the function of decoration, as well as a convenient grip for moving the table. The image is complemented by the smooth curves of the base, allowing the eye to wander with satisfaction over the harmonious silhouette.
