

Steel chair Dewy

209 usd

- We hand-drew a sketch of the leaf, made a reamer for laser cutting the steel at 1500°C and then bent it with a 25 tonne press.
- Exhibited at Paris Design Week 2018; and at Kiff, Design Living Tendency, INTERIOR MEBEL.
- Stackable in 4 units.
- Designed and manufactured in Ukraine, with love!

The Dewy collection of accent chairs draws attention with its backrest in the form of the exotic plant *Monstera deliciosa*. The ergonomically bent steel sheet expresses the idea of creating symbolic elements, with simple tools. Dewy does not imitate a tropical interior setting, but is a beautiful reminder of a carefree life surrounded by the gentle sea, refreshing breeze, exotic flora and fauna. In the cold season, when the weather outside the window is overcast, this decor warms the hearts of the owners and their guests with its pleasant memories of warm countries. For outdoor terraces it is possible to modify it with a seat made of HPL.

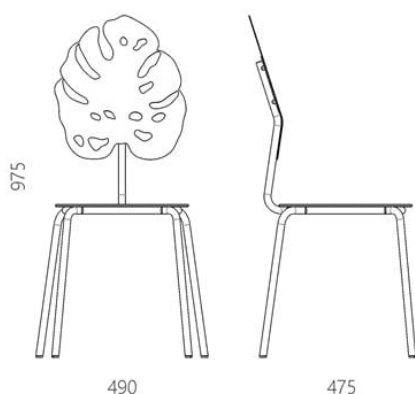

Designer: Sergei Lvov

Year of creation: 2016

Height: 975 mm

Width: 490 mm

Depth: 475 mm

dewy
