igapo стол

Square plate side table Igapo

142 usd

- The bold design of the table top will arouse the constant interest of your guests.
- The table is available in different sizes and looks spectacular both individually and in groups.
- Exhibited at the exhibitions Interior of the Year, Kiff, Design Living Tendency, BakuBuild Azerbaijan.
- Designed and manufactured in Ukraine, with love!

The Igapo collection is inspired by the vegetation of tropical forests, reinterpreted in a new way. The collection is characterised by the image of a leaf of the tropical plant Monstera deliciosa, which has been unusually adapted for use in the home. The metal table top is inserted into the frame and is fixed thanks to perimeter folds. We have carefully placed silicone bumpers underneath the worktop for comfortable use without the clanging sound of metal. And your parquet flooring is protected by silicone floor pads. Thanks to the airy appearance and exotic shape of the surfaces, an inconspicuous living room piece has been given an attractive new look.

Designer: Sergei Lvov
Year of creation: 2019

Height:	355 mm, 450 mm
Depth:	500 mm
Width:	500 mm
