krater

We present to you a new modification of the Krater table, with a print on the tabletop in the form of an artistic mosaic panel made of glass mosaic. The new image was developed in collaboration with the mosaic gallery Colibri Mosaic. The inspiration for the Krater table (from the Greek for "ancient Greek bowl") was the rebellious nature of our cat, who prefers to sleep in secluded places. His calling card was a floor bowl, seemingly twisted from paper into a simple origami figure. The resulting free space under the countertop will become a cozy resting place for your pet, and is also ideal for storing useful little things.
