Reliable cardboard packaging with film and foam.

Comes assembled.

Number of seats: 1 piece

700x800x800 mm

Weight with packaging: 16 kg

Outdoor chair TUTTU Gradar

305 usd

- A modern garden chair with a minimalist design.
- Designed and manufactured in Ukraine, with love!

TUTTU Gradar (Gradar) is a continuation of the series of chairs of the same name, with a minimalist design. The new modification is designed as outdoor furniture for terraces, gardens and urban spaces. The chair takes its name from an outdated synonym for the word "gardener". This is the personification of a kind, simple-hearted character who carefully cares for and nurtures his garden, carefully observing its seasonal transformation.

The new design continues the exploration of steel pipe bending technologies combined with wooden elements. The smooth lines of the structure form a reliable frame to which the seat and backrest made of wooden slats are attached. They provide a balance of comfort and performance reliability for outdoor use. Protected with outdoor oil and hard wax, this seat allows water to drain away, meaning it dries faster after rain, ideal for outdoor lounging.

Designer: Sergey Lvov

Year of creation: 2020

Height: 725 mm

Width: 676 mm

Depth: 760 mm

Materials and instructions

Frame: steel tube, powder coated, floor protectors, brass authenticity mark. Seat and back: slats made of solid ash 20 mm. Coating: street oil with hard wax OSMO (Germany). Surface: silky matte. Care: oiled wood absorbs liquid less quickly, but it is better to wipe down outdoor furniture after rain. This will prevent liquids from penetrating deep into the wood. [Care instructions](#)
