Low steel stool Spike

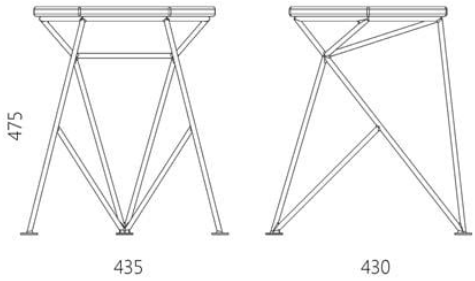

234 usd

- Exhibited at the exhibitions Design Living Tendency, PROSTONEBA architecture festival.
- Designed and manufactured in Ukraine, with love!

Spike was inspired by the shape of the thorn with its prickly character that insistently asserts itself. The stool has a geometric frame and a hexagonal ash wood seat. Moving around the stool, in a certain perspective it appears to be a flat graphic drawing, and suddenly the geometric lines float back into space.
