Box depth: 570 mm

Box height: 350 mm

Weight with packaging: 1.5 kg

Foot pouf UNI

39 usd

- Designed in collaboration with the Litvinov Studio workshop.
- Designed and manufactured in Ukraine, with love!

The UNI foot pouf is our joint development with the Stas Litvinov Studio workshop. It expresses the spirit of simplicity and spontaneity. It is made of original fabric and has a friendly appearance.

Its soft shapes look naturally comfortable. The outer case is made of high-tech, artificial 3D mesh. Breathable, quick-drying textiles without unpleasant odors, resistant to mildew. The inner cover is made of stretch nylon, a lightweight and tear-resistant material. The filler consists of a special proportion of two components: elastic holofiber fibers and mini-granules of polystyrene foam, capable of adapting to the body and sitting position. These are environmentally friendly and hypoallergenic materials.

Materials and instructions

Pouf: removable cover: 3D mesh textile, polyester. Inner cover: stretch nylon. Filler: a combination of holofiber fibers and mini-granules of polystyrene foam.

Care: to keep the fibers and pouf filled with air, you need to shake it from time to time. Vacuum the outer cover regularly with the brush attachment. Fresh dirt should be blotted immediately with a clean absorbent cloth, then removed with soapy water. Can be cleaned in a washing machine on delicate cycle. The maximum load on the product is 150 kg. Do not iron. Do not use the product without an outer cover. Keep children away from the open inner cover; the filler may spill out. Over time, the bean bag chair shrinks. It is recommended to add material once every three years. Service life: 5-10 years.
