Package information

Comes assembled
Number of seats: 1 piece
Box width: 900 mm
Box depth: 900 mm
Box height: 600 mm
Weight with packaging: 10 kg

The soft shapes of the pillow and pouf look naturally comfortable. The outer case is made of high-tech, artificial 3D mesh. Breathable, quick-drying textiles without unpleasant odors, resistant to mildew. The inner cover is made of stretch nylon, a lightweight and tear-resistant material. The filler consists of a special proportion of two components: elastic holofiber fibers and mini-granules of polystyrene foam, capable of adapting to the body and sitting position. These are environmentally friendly and hypoallergenic materials. The flowing metal frame, which extends along the contour of the chair, creates an overall silhouette and also serves as support when sitting.

Year of creation 2019

Height: 645 mm

Width: 900 mm

Depth: 900 mm

Materials and instructions

Frame: 16 mm steel pipe, polymer powder paint, plastic lining.

Pillow: removable outer cover: 3D mesh textile, polyester. Inner cover: stretch nylon. Filler: a combination of holofiber fibers and mini-granules of polystyrene foam.

Care: to keep the fibers and pillow filled with air, it needs to be shaken from time to time. Vacuum the outer cover regularly with the brush attachment. Fresh dirt should be blotted immediately with a clean absorbent cloth, then removed with soapy water. Can be cleaned in a washing machine on delicate cycle. The maximum load on the product is 150 kg. Do not iron. Do not use the product without an outer cover. Keep children away from the open inner cover; the filler may spill out. Over time, the chair shrinks. It is recommended to add material once every three years. Service life: 5-10 years.
