

Set of two coffee tables PART marble

691 usd

- Table top in luxurious white polished marble.
- An aesthetic addition to a timeless interior.
- The tables can be used as an ensemble or separately.
- Designed and manufactured in Ukraine, with love!

Part is a set of two composite coffee tables. It is designed with the motto: find a place for every detail, which is also reflected in the name Part — "part, detail". It is a solution for luxurious living rooms, and goes particularly well with classic three-seater sofas. Without being bulky, the elegantly proportioned table with its majestic marble surface will be the perfect centre of attention. And the sturdy construction of the geometric motif base gives it a contemporary look. The standard arrangement combines two table tops into a single rectangular shape. You have a marvellous opportunity to create your own composition by arranging the tables in any order you like. Also use PART as two self-sufficient coffee tables in different functional areas. This feature makes it a universal object.
