

Armchair UNI with foot pouf Persempra

361 usd

- This product has not been available for order since February 2022. @shishkaproject_com is working on resuming its production
- Improved modification of the Uni chair: made of 3.5 meters of Italian textile Itavelluti Persempra and quilted cotton.
- Features elegant finishes with a restrained palette for formal spaces.

The chair with foot pouf UNI Persempra is our joint development with the Stas Litvinov Studio workshop. The updated model with an outer cover made of Italian furniture textile Itavelluti Persempra expresses the spirit of simplicity and spontaneity. Raised off the floor, the cushion has an elegant finish with a subdued palette suitable for formal spaces. The soft shapes of the pillow and pouf, with a playful modern design, look naturally comfortable. Their filler consists of a special proportion of two components: elastic holofiber fibers and mini-granules of polystyrene foam, which can adapt to the body and sitting position. These are environmentally friendly and hypoallergenic materials. The flowing metal frame, which extends along the contour of the chair, creates an overall silhouette and also serves as support when sitting.

Designers: Stas Litvinov, Sergey Lvov

Year of creation: 2021

Height: 645 mm

Width: 900 mm

Depth: 900 mm

Materials and instructions

Frame: steel pipe 16 mm, powder painting, plastic lining. Soft part: removable outer cover: Itavelluti Persempra textile, 100% polyester. Inner cover: quilted cotton. Filler: a combination of holofiber fibers and mini-granules of polystyrene foam. Care: to keep the fibers and pillow filled with air, it needs to be shaken from time to time. Vacuum the outer cover regularly with the brush attachment. Fresh stains should be blotted immediately with a clean, absorbent cloth. The maximum load on the product is 150 kg. Do not use the product without an outer cover. Over time, the chair shrinks. It is recommended to add material once every three years. Service life: 5-10 years. [Care instructions](#)
