

Low stool Morsetto

640 usd

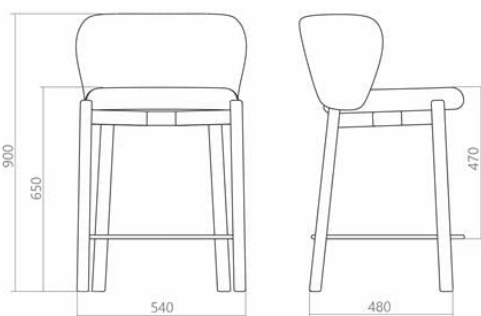

- Inspired by a vintage vise we saw in a carpentry workshop in northern Italy.
- Characterised by a functional design that serves the human being: natural materials, elegant workmanship and friendly form.
- A pleasant reference to Italian traditional craftsmanship, is a teleporter to a bright carefree reality, and an emotional provenance to tell guests about.
- Designed and manufactured in Ukraine, with love!

Morsetto is a multifunctional collection of chairs, armchairs, and tables. It allows for the creation of a harmonious furniture system for hotels and apartment complexes with a unified identity. The appearance of Morsetto is based on a balance of formal austerity and rich, well-crafted details. It features monumental soft elements, sinuous backs with cozy headrests, and ergonomic proportions. The sturdy base with intriguing rounded legs made of solid wood adds additional aesthetic value.

The Italian name is inspired by elegant vintage clamps made from solid wood. This traditional tool of artisan workshops was used to securely hold parts in place. It has been reimaged in a modern form as rounded wooden supports, serving as a unifying element of the collection. Their diagonal arrangement creates a sense of pressure, bringing the elements together into a cohesive composition.

Designer: Sergei Lvov
Year of creation: 2024

Height: 900 mm
Width: 540 mm
Depth: 480 mm

Package information

Reliable cardboard packaging. Package quantity: 1 piece. 920x560x500 mm. Weight: 16 kg. The product is assembled.
