Rectangular coffee table Massless2

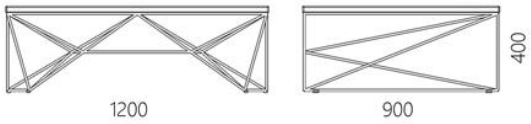

491 usd

- We use traditional carpentry skills, with artistic selection of wood grain and seamless gluing of lamellas on microship.
- Individual wood tinting or painting in the RAL palette in the shade/colour you need is possible.
- Designed and manufactured in Ukraine, with love!

The Massless2 coffee table does not clamour for colourful details in the interior, it carries an aesthetic sense of silence, crammed into a rectangular shape. The look of the table is inspired by Scandinavian style: a traditional heavy wooden seat and a thin support structure — a contrast of warm wood and cold metal.
