Steel and wood planter Herba mini 20x20 cm

319 usd

- One day the planter travelled 20684 km to end up at a customer's house in Australia.
- The decorative cachepot frames the plant, making it the centre of attention.
- Its spectacular design is emphasised by the handmade wooden tub.
- Designed and made in Ukraine, with love!

The Herba cachepot is the solution for the comfortable arrangement of plants in the home. Our welders create technically precise, spectacular structures; our carpentry craftsmen match this with a handmade wooden tub, with no visible fasteners. This tandem of equal work gives birth to the impeccable appearance of the product.
