Wall mounted console table Lancette

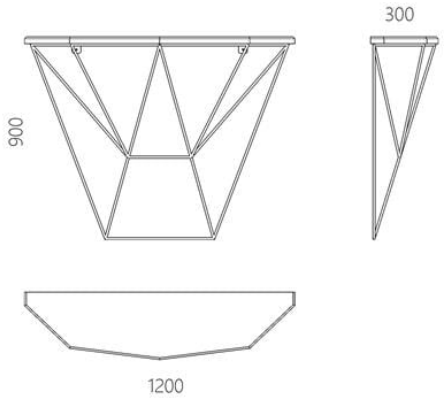

311 usd

- The striking steel pedestal will be the centre of attention in your entrance hall.
- The wood can be individually tinted or painted in the RAL palette in the shade/colour you need.
- Designed and manufactured in Ukraine, with love!

The design of the console is revealed in the meaning of the name from the French lancette "small spear". It is a pointed figure that has a decorative function, parallel, framing and emphasising the silhouette of the object. The natural wood table top also has chopped edges. Their combination creates a refined compositional balance of textured wood and light metal lines. Bringing dynamism to every space. Linearity and simplicity are a reflection of Lancette.

Designer: Sergei Lvov
Year of creation: 2016
