- Designed and manufactured in Ukraine, with love!

Office is a universal metal table for indoor and outdoor use. If you put together a set of tables, it will look like a fun island of pranks, akin to multi-colored cubes left on the floor by a mischievous child. They create a wonderful atmosphere for informal communication. Under the tabletop there are two crossbars that serve as bookmarks for books and magazines read during lunch breaks. For a more airy appearance, rows of holes made by stamping are applied to the tabletop.
