Set of 3 wood and steel coffee tables Part

604 usd

- The three-top tables can be used as an ensemble or individually.
- We use traditional carpentry craftsmanship with artistic selection of wood grain and seamless gluing of lamellas on microship.
- Individual wood tinting is possible, or painting according to the RAL palette in the shade/colour you need.
- Designed and manufactured in Ukraine, with love!

Part is a set of three composite coffee tables with alternating heights. It is designed with the motto: find a place for every part, which is also reflected in the name. The tinted natural ash table tops, combined with the metal pedestals, create bold combinations that complement each other. The standard arrangement combines the worktops into a rectangular shape. You have a marvellous opportunity to get your own composition by arranging the tables in any convenient order. Also use Part as three self-sufficient tables in different functional zones.

Designer: Sergei Lvov
Year of creation: 2015

Height:	480 mm
Depth:	800 mm
Width:	1300 mm
