Steel chair Supportchair

326 usd

- Our most popular range, we have already produced 600 units.
- The intricate weave of lines, creating a strong structure, separates it from hundreds of ordinary chairs.
- Exhibited at Design Living Tendency, PROSTONEBA architecture festival.
- Designed and made in Ukraine, with love!

Supportchair is the continuation of the popular Support chair range, in the classic height for dining tables. It is a charismatic piece with a memorable appearance and an unusual graphic structure of the frame. The dynamic lines of the improvised legs create for it that Wow -effect, which is so necessary for modern memorable interiors.

Designer: Sergei Lvov
